

Oral7 with natural enzymes is the most suitable toothpaste for protecting your child's mouth

Oral7 Tiny Teeth Gel

contains the two most protective enzymes found in breast milk, offering your child the best protection for their teeth and gums. For infants from 3 months to 3 years. Safe to swallow.

When your child grows, he or she will need **Oral7 KIDS Toothpaste** that helps to strengthen tooth enamel. The only children's toothpaste that contains **natural enzymes and 1,000 ppm of fluoride**, it is the ideal solution to fight against tooth decay. For ages 4 and above.

Available at:

NTUC Unity,
Guardian, Nishino,
Vitakids, 1010 Mother
& Child Essentials,
Mom Essentials,
Kiddy Palace and
other leading
pharmacies

Give your
child the
best smile
with **Oral7!**
